Standards Announcement

Project 2023-05 Modifications to FAC-001 and FAC-002

Nomination Period Now Open through September 27, 2023**[Now Available](#)**

Nominations are being sought for **Project 2023-05 Modifications to FAC-001 and FAC-002** drafting team members. **The due date has been extended, and is now open through 8 p.m. Eastern, Wednesday, September 27, 2023.**

Use the [electronic form](#) to submit a nomination. Contact [Linda Jenkins](#) regarding issues using the electronic form. An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project page](#).

Previous drafting or review team experience is beneficial, but not required. A brief description of the desired qualifications, expected commitment, and other pertinent information is included below. By submitting a nomination form, you are indicating your willingness and agreement to actively participate in face-to-face meetings and conference calls.

NERC is seeking individuals who have significant subject matter expertise with DER and facility interconnection requirements and studies. Expertise with FERC Open Access Transmission Tariff (OATT) implementation is also needed.

The time commitment for these projects is expected to be up to one face-to-face meeting per quarter (on average two full working days each meeting) with conference calls scheduled as needed to meet the agreed-upon timeline the review or drafting team sets forth. Team members may also have side projects, either individually or by subgroup, to present to the larger team for discussion and review.

Next Steps

The Standards Committee is expected to appoint members to the drafting team in October 2023. Nominees will be notified shortly after they have been appointed.
