

Evaluation | Analysis | Assistance | Operating Experience

The Summary of the changes to the *SERC Regional Reliability Standard Development Procedure* include the following:

- Updated references to the Executive Committee(s) of the Technical Committees to reflect the current committee structure of one Operations Planning and Security Executive Committee;
- Removed reference to the SERC Board of Directors representatives and alternates and replaced with SERC Board of Directors;
- Removed reference to the SERC Executive Committee and replaced with SERC Board of Directors; and
- Added abbreviations for Standards Committee, Registered Ballot Body, and Bulk Electric System to maintain consistency throughout the document.
